Campaign Spending: [List of Filers](#)

I was born in Hawaii and raised between here and California. I honorably served our Country in the Army during the Vietnam War. Since returning home in 1974, I worked many years with my father as an electrician and then as a part owner of a wholesale distributor. I am a certified lifeguard and water safety instructor and most important, I was the caregiver to my late father for five years and am currently the caregiver for my mother for the past six years. I know the problems of the elderly. I want to provide respectable long term care facilities and necessary medicine and medical care to all of those in need. I want to provide support for my fellow caregivers, who put their careers, social and financial obligations aside to assist their loved ones.

The Lt. Governor becomes the acting Governor when the Governor cannot fulfill his or her responsibilities due to being out of State, ill, or disabled from duty. I would also be the Chief Elections Officer. To fulfill these responsibilities, I would work closely with the Governor.

I believe the State must carefully and compassionately spend our revenues. We must reorder our priorities to include all our citizens in our prosperity. No one in Hawaii should go to sleep hungry or not have a place to sleep.

We must have full equality for all our citizens. There should be no discrimination in our housing, job or social services market based on our protected classes.
